

## **Chief Medical Officer**

Newburyport, MA – Anna Jaques Hospital (AJH) is seeking a transformative, dynamic, operational, physician leader to serve as its next Chief Medical Officer. This is an exceptional opportunity for a mission-driven physician executive to join a highly regarded and financially strong integrated delivery system focused on its commitment to improve the coordination of care, and empower and inspire healthier lifestyles.

AJH is a member of Beth Israel Lahey Health (BILH), one of Massachusetts' largest and most integrated healthcare delivery systems. BILH has 13 hospitals and a physician network that covers eastern Massachusetts from Gloucester to Plymouth, generating \$6.5 billion in net operating revenues. BILH has over 4,300 physicians and 9,000 nurses practicing in their hospitals and clinics, and the health system has nearly 36,000 dedicated employees and 1.3 million patients. Established in 1884, AJH has served as the high quality, lower-cost health care provider to patients throughout the North Shore, Merrimack Valley and Southern New Hampshire.

Reporting to AJH President and CEO, Mark Goldstein, the CMO is an integral member of the senior leadership team for AJH, facilitating a culture of clinical quality and operational excellence with an eye on patient experience to support the health system's strategies. The CMO will help lead the future direction of AJH and align its clinical and non-clinical operations with the mission and vision of BILH. This leader will work across disciplines and throughout the care continuum to drive hospital-operating efficiency through an emphasis on continuous improvement. This CMO will also operationally lead and serve as the COO for the employed physician arm of AJH, called Seacoast Affiliated Group Practice.

This position requires an individual who has a passion for providing outstanding care to the community and a desire to improve systems to maximize efficiency. The CMO will be a bridge builder/uniter and someone who has superb communication skills as well as high emotional intelligence. The successful candidate will have an intimate knowledge of hospital operations, knowledge of CPOE and EMR, ability to use data analytics to drive change of physician behavior and understand the value of building effective relationships with multiple partners and stakeholders in a highly matrixed environment.
