

## Abdominal Imaging Radiologist

The UC Irvine School of Medicine, Department of Radiological Sciences anticipates openings in the Professor of Clinical "X" Series and Health Sciences Clinical Professor Series, at the Assistant and Associate Professor rank in the Section of Abdominal Imaging. Expertise in all aspects of advanced abdominal imaging, especially MRI, is a prerequisite.

Criteria for the Professor of Clinical "X" Series: The incumbent will be expected to conduct substantial research; provide patient care; teach fellows, residents, and medical students; and perform public and University service. Excellent teaching is an essential criteria for appointment in this series.

Criteria for the Health Sciences Clinical Professor Series: The incumbent will be expected to teach fellows, residents, and medical students; provide patient care; contribute to scholarly activities; and provide public and University service.

**Requirements** - Candidates must possess an M.D. or D.O. degree. The applicant must be fellowship trained in Abdominal Imaging and have a documented interest in research and teaching with documented scholarly activities. Proficiency in advanced MRI protocols including prostate and rectal cancer imaging, elastography, enterography, and pelvic floor imaging is a plus.

The University of California, Irvine, Medical Center is located in Orange, California and is the only level I trauma center in the region. The hospital is an NCI-designated cancer center with multidisciplinary research opportunities available. The department performs over 220,000 examinations per year and has 30 full-time and part-time faculty. All imaging equipment is state of the art. The department has active multidisciplinary collaborations with other services. The section provides CT, MRI, ultrasound, and fluoroscopy/radiography imaging services; invasive procedures are performed separately by the interventional radiology section. The UC Irvine Medical Center is a 450-bed acute care and tertiary referral facility.

Orange County is world-renowned for its natural beauty, perfect year round climate, gorgeous locales on the Pacific Ocean and incomparable recreational opportunities. Great cultural opportunities abound in Orange County as well as in nearby Los Angeles and San Diego counties.
