

Are you a visionary, first -rate Scientific Leader seeking a career at one of the preeminent biomedical research institutes in the nation and the world? The National Institutes of Health offers a unique and exciting opportunity to serve as the **Deputy Director for the Environmental influences on Child Health Outcomes (ECHO) Program**, actively engaging others to create a shared vision of the purpose and direction of the program. The ECHO Deputy Director is responsible for directing, planning, coordination, and integration of ECHO program activities under direction and vision of the ECHO Program Director. Learn more about ECHO at <https://www.nih.gov/echo>.

We are looking for applicants with a commitment to scientific excellence and the energy, enthusiasm, and innovative thinking necessary to lead a large, dynamic, and diverse program. Applicants must possess an M.D. or equivalent doctoral degree in the biomedical sciences and have senior-level research experience and knowledge of research programs in epidemiology, pediatrics, and/or environmental health. In addition, applicants must have an extensive background and experience running large research consortia, cohorts, and/or clinical trials.

The successful candidate for this position will be appointed at a salary commensurate with experience and accomplishments, and will receive full Federal benefits, including leave, health and life insurance, retirement, and savings plan (401K equivalent).

If you are ready for an exciting leadership opportunity, please see the detailed vacancy announcement at <https://hr.nih.gov/jobs/search/scientific/job-74436>.

Applications are due by 11:59 pm ET, July 24, 2023. Please contact Ashley Jenkins at Ashley.Jenkins@nih.gov for questions or additional information.

DHHS and NIH are equal opportunity employers.
