

The Department of Neurosurgery at Stanford University seeks an exceptional basic or translational neuroscientist with proven track record in molecular and cellular neurobiology to join the Department as Assistant, Associate or Full Professor in the University Tenure Line (UTL) to expand the department's program in basic/translational research. A focus on basic and translational research in an area of molecular and cellular neurobiology is strongly desired.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching.

Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

The successful applicant should have a PhD and/or MD degree and be actively engaged or show exceptional promise in a laboratory research program. Independent funding is seen as evidence of scholarly achievement/potential for independence.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.

The Neurosurgery Department, School of Medicine, and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: <https://ideal.stanford.edu/about-ideal/diversity-statement>.

Applicants are encouraged to apply early, and applications will be considered until the position is filled.

Submit CV, a brief letter outlining your global interests, immediate and long-term research goals, experience and the names of three references to:
