

The Department of Neurosurgery at Stanford University seeks an exceptional basic or translational scientist with a proven track record in studying the brain computer interface to join the University as an Assistant or Associate Professor in the University Tenure Line (UTL). A focus on basic and translational research in an area of brain computer interface is strongly desired.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching.

Faculty rank and line will be determined by the qualifications and experience of the successful candidate.

The successful applicant should have a PhD and/or MD degree and be actively engaged or show exceptional promise in a laboratory research program. Independent funding is seen as evidence of scholarly achievement/potential for independence.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.

The Neurosurgery Department, School of Medicine, and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: <https://ideal.stanford.edu/about-ideal/diversity-statement>.

Applicants are encouraged to apply early, and applications will be considered until the position is filled.

Applicants should submit a cover letter, CV, 3-5 page statement of research accomplishments and plans, 1 page teaching statement, 1 page diversity statement (recommended), 2 representative publications, and at least 3 letters of reference.
