

## **Sarcoma-Melanoma, Thoracic, Classical Hematology, Lymphoma, Cell Therapy/Stem Cell Transplant Faculty – University of Virginia**

The Department of Medicine, Division of Hematology and Oncology at the University of Virginia is seeking open rank faculty candidates in the subspecialties of Sarcoma-Melanoma, Thoracic, Classical Hematology, Lymphoma, and Cell Therapy/Stem Cell Transplant focused on clinical care and clinical Investigation.

The Division of Hematology and Oncology is an expanding team of more than 40 physicians and physician-scientists with a vibrant clinical research portfolio. The successful candidate would be a member of the UVA Comprehensive Cancer Center, a designated Comprehensive Cancer Center in Virginia. The successful candidate will look to further current scholarly achievements through clinical and translational research opportunities. Translational collaborations within the Cancer center are encouraged. Participation in student, resident, and fellow teaching is required and opportunities are abundant.

- The **Sarcoma-Melanoma** candidate should have experience in the care of both Sarcoma and Melanoma patients.
- The **Thoracic Oncology** candidate should have experience in the management of thoracic neoplasms.
- The **Classical Hematology** candidate should have expertise in caring for patients with a vast array of hematologic conditions, including disorders of hemostasis and thrombosis, anemias, platelets disorders, bone marrow failure syndromes, myeloproliferative disorders, and other rare hematologic diseases.
- The **Lymphoma and CLL** candidate should have experience in the care of Lymphoma and Chronic Lymphocytic Leukemia.
- Expertise in the care of patients with malignant disease with an emphasis on **BoneMarrow/Stem Cell transplantation and Cellular Therapies** is required for the Stem Cell Transplant/Cellular Therapy position.
- All teams are comprised of a collaborative group of physicians, nurses, advanced practitioners, and research coordinators with the goal to care for patients with these disorders through excellent clinical care and a robust clinical research program.

The candidates must be board certified/eligible in Medical Oncology and/or Hematology. Board certification in Internal Medicine is encouraged. Rank and compensation are contingent upon qualifications and expertise.

Complete applications will include Cover Letter, updated CV, statement of academic/research interests, and contact information for at least 3 references (reference contact will not happen until after the interview has been conducted).

Please contact Dr. Robert Dreicer with questions at [RD7VA@virginia.edu](mailto:RD7VA@virginia.edu) for Sarcoma-Melanoma and Thoracic.

Please contact Dr. Kelly Davidson with questions at [KM6FT@virginia.edu](mailto:KM6FT@virginia.edu) for Classical Hematology.

Please contact Dr. Craig Portell with questions at [CP4YS@virginia.edu](mailto:CP4YS@virginia.edu) for Lymphoma.

Please contact Dr. Karen Ballen at [KB3TC@virginia.edu](mailto:KB3TC@virginia.edu) for Stem Cell/Transplant.

These positions will remain open until filled. These are Exempt level, benefited positions. These positions are restricted positions and are dependent upon project need, availability of funding, and performance. The University will perform background checks on all new hires prior to employment. For questions about the position or the application process, please contact Jessica Russo, Recruiter at [SXV9ZV@virginia.edu](mailto:SXV9ZV@virginia.edu).

The successful candidate will pass a background check and pre-employment health screening.

**How to Apply:**

Applications that do not contain all of the required documents will not receive full consideration, please note that multiple documents can be uploaded in the box.

Please apply through Workday, and search for ‘R0038869’ to apply for the Sarcoma-Melanoma position, ‘R0039080’ to apply for Thoracic Oncology, ‘R0039216’ to apply for Classical Hematology, ‘R0033860’ to apply for Lymphoma/CLL, and ‘R0033877’ to apply for STC/Transplant and complete an application online and attach a Cover Letter, CV/Resume, and contact information for three References (name, email address, telephone number, and address).
