

The Department of Medicine, Division of Hematology, seeks a physician scientist to be appointed as Assistant or Associate Professor in the University Medical Line (UML). The candidates should have an outstanding (or has the potential to have a) record of accomplishment in clinical care, teaching, and a focused area of research activity in hematologic malignancies with relevance to acute leukemias, myelodysplastic syndromes, or multiple myeloma. The candidates will be considered across broad areas of expertise including clinical trials and translational research with a laboratory component.

For more information about the position, including required qualifications and application materials, go to: <https://apptrkr.com/5049395>

Applications will be reviewed beginning April 15, 2024 and accepted until position is filled.

Contact Junie Urbano, Faculty Affairs Specialist for Recruitment at [junieu@stanford.edu](mailto:junieu@stanford.edu) for more information.

The Department of Medicine, School of Medicine, and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: <https://ideal.stanford.edu/about-ideal/diversity-statement>.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.
