

ASSISTANT, ASSOCIATE OR FULL PROFESSOR OF PATHOLOGY, RESEARCH PATHOLOGY
(University Tenure Line)

The Department of Pathology (med.stanford.edu/pathology) at Stanford University seeks an outstanding scientist to join the Department as Assistant, Associate, or Full Professor in the University Tenure Line. Stanford Pathology particularly encourages candidates who aspire to groundbreaking research in high-resolution, non-destructive optical imaging methods and integrated computational-analysis strategies for disease diagnosis, prognostication, and clinical decision support. The successful candidate will collaborate with clinically active pathologists to develop groundbreaking, slide-free imaging solutions to advance computational pathology.

The Department of Pathology at Stanford University is one of the leading academic pathology departments in the US with approximately 120 faculty, among whom are a Nobel laureate, HHMI investigators, multiple members of the National Academies, and many faculty with other national distinctions. Stanford Pathology research has areas of focus that include anatomic pathology, immunology, genetics, cancer research, and neuroscience. We seek an innovative faculty member who will inspire and train the next generation of biomedical revolutionaries.

The predominant criterion for appointment in the University Tenure Line is a major commitment to research and teaching. The successful applicant should have a Ph.D., D.Sc., and/or M.D. and an outstanding track record in research and teaching. Faculty rank at Stanford will be determined by the qualifications and experience of the successful candidate.

Applicants should submit a curriculum vitae, a cover letter, a one-page research statement, a one-page teaching statement, and a one-page list of references to: <https://apptrkr.com/5064463>. Applications will be reviewed beginning 1 March 2024 and accepted until the position is filled.

The Pathology Department, School of Medicine, and Stanford University value faculty who will help foster an inclusive academic environment for colleagues, students, and staff with a wide range of backgrounds, identities, and outlooks. Candidates may choose to include as part of their research and teaching statements a brief discussion about how their work and experience will further these ideals. Additional information about Stanford's IDEAL initiative may be found here: <https://ideal.stanford.edu/about-ideal/diversity-statement>.

The expected base pay range for this position is:

Assistant Professor: \$162,000 – \$214,000

Associate Professor: \$215,000 - \$253,500

Professor: \$244,000 – \$322,500

This pay range reflects base pay, which is based on faculty rank and years in rank. It does not include all components of the School of Medicine's faculty compensation program or pay from participation in departmental incentive compensation programs. For more information about compensation and our <https://cardinalatwork.stanford.edu/benefits-rewards>, including <https://fsh.stanford.edu>, please contact the hiring department.

Stanford University has provided a pay range representing its good faith estimate of what the university reasonably expects to pay for the position. The pay offered to the selected candidate will be determined based on factors including (but not limited to) the experience and qualifications of the selected candidate including equivalent years in rank, training, and field or discipline; internal equity; and external market pay for comparable jobs.

Stanford is an equal employment opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability, protected veteran status, or any other characteristic protected by law. Stanford also welcomes applications from others who would bring additional dimensions to the University's research, teaching and clinical missions.
